

GREENHOUSES

— NATURA COLLECTION —

 **LAMS**

A love affair with the garden that has lasted for 30 years!

Discover LAMS greenhouses in video

NATURA COLLECTION

Founded by garden enthusiast, LAMS has become a French specialist in the design and manufacture of greenhouses and conservatories: a guarantee of **quality and reliability**.

The **Natura collection** is specially designed for all nature lovers. This collection offers a **wide range of greenhouses**, both lean-to and double-sloped, in **various sizes and colours**.

8

REASONS TO CHOOSE OUR GREENHOUSES NATURA

1

THE FRENCH KNOW-HOW

Developed in our workshops in the Vendée (France), the Natura collection benefits **from 30 years of Lams expertise and know-how**.

2

THE LONGEVITY

The aluminium structure and stainless steel screws of our greenhouses are guaranteed 10 years. **A greenhouse with quality materials, designed to last.**

3

THE SAFETY

The greenhouses are equipped with 3 mm **tempered glass**, held in place by stainless steel glazing clips.

LAMS EXCLUSIVITY

4

THE INCLUDED BASE

The base frame is included for all our greenhouses. It insures **stability, facilitates the assembly and protects the glazing** from shocks (lawnmower, tiller...).

5

THE GUTTER DOWNPIPE KIT

The gutter downpipe kit is supplied with all our greenhouses. It allows you to collect rainwater in an economical and environmentally friendly way.

6

THE CHOICE OF COLOURS (depending on the model)

Aluminium (unlacquered)

Anthracite grey (RAL 7016 matte)

Green (RAL 6009 matte)

7

THE CHOICE OF ACCESSORIES

You can add a **roof window, a table, a shading system or an automatic window opener** to make your life easier.

8

PRACTICAL PACKAGING

Each Natura greenhouse is delivered on an **80x120 cm pallet**. This means only a tailgate equipped truck is needed for the delivery. The carrier then uses a forklift to place the greenhouse at the customer's property line.

ALLIUM, a greenhouse for small spaces

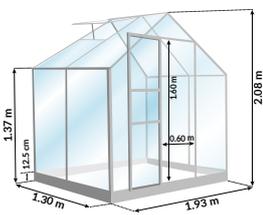

Allium 7.30 m²

With a width of **1.93 m**, this greenhouse is available in 4 lengths from **1.30 m to 3.80 m**. It has a **1.37 m** gutter and **2.08 m** ridge height.

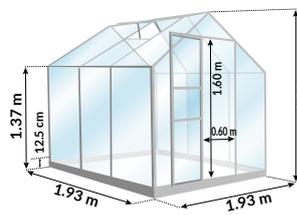

The Allium greenhouses are equipped with:

- > 1 base frame with a **12.5 cm** height
- > 1 sliding door (**W. 60 x H. 160 cm**)
- > 1 to 2 **roof windows** depending on the model (with automatic window opener as option)
- > 1 kit with two gutter downpipes

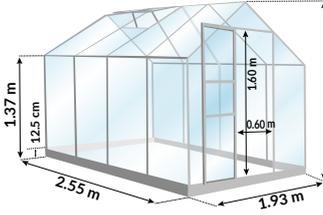

Allium 2.50 m²

Allium 2.50 m²

Allium 4.90 m²

ADVICE N°1

What size for your greenhouse ?

It depends on what you want to do with your greenhouse. To produce seedlings, to give your summer crops a head start, protect some fragile plants, a greenhouse of less than 4 m² may be enough for you. If you want to create a living space, a greenhouse of 8 m² or more will suit you perfectly.

CARVI,

a greenhouse with character

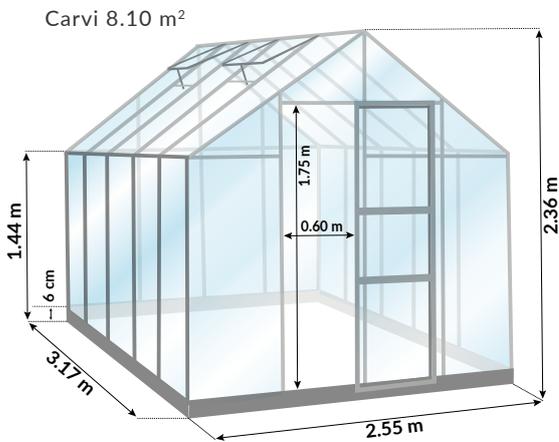

With a width of **2.55 m** and a length of **3.17 m**, this greenhouse has a **1.44 m** gutter and **2.36 m** ridge height.

The Carvi greenhouses are equipped with:

- > 1 base frame with a **6 cm** height
- > 1 sliding door (**W. 60 x H. 175 cm**)
- > 2 **roof windows** (with automatic window opener as option)
- > 1 kit with two gutter downpipes

NAME	WINDOW(S)	COLOUR	REFERENCE
Carvi 8.10 m ²	2	Aluminium	788695
		Green	788697
		Anthracite grey	795139

ADVICE N°2

Where to install your greenhouse?

Ideally, choose a sunny area, which is conducive to the growth of your plants, the protection of your flowers (wintering) and the natural heating of the greenhouse.

Opt for an installation sheltered from the wind to avoid heat loss.

LAURUS, a greenhouse of seduction

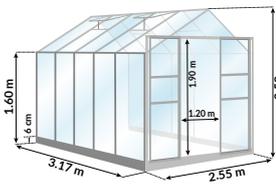

Laurus 14.40 m²

With a width of **2.55 m**, this greenhouse is available in 5 lengths from **3.17 m to 5.66 m**. It has a **1.60 m** gutter and **2.53 m** ridge height.

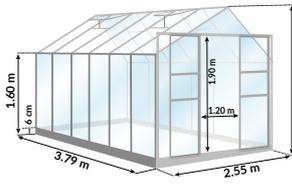

The Laurus greenhouses are equipped with:

- > 1 base frame with a **6 cm** height
- > 1 double sliding door (**W. 120 cm x H. 190 cm**)
- > 4 to 6 **roof windows** depending on the model (with automatic window opener as option)
- > 1 kit with two gutter downpipes

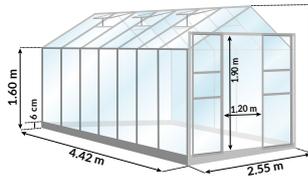

Laurus 8.10 m²

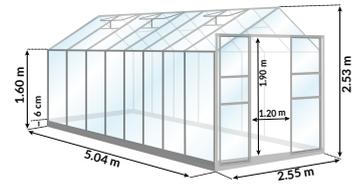

Laurus 9.70 m²

Laurus 11.30 m²

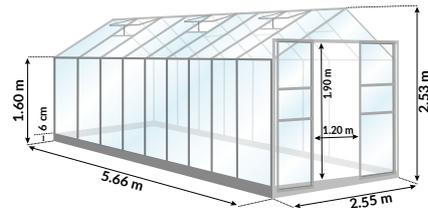

Laurus 12.90 m²

Laurus 11.30 m²

ADVICE N°3

What type of greenhouse to choose?

Lean-to greenhouse (to your house, garden shed, ...) or double slope greenhouse?

A lean-to greenhouse is often warmer and better protected from the wind.

Double-sloped greenhouses have the advantage that they can be installed anywhere in your garden.

Classic or rounded greenhouse?

Aluminium, green or anthracite grey coloured?

Many possibilities for a perfect harmony of your outdoor space.

ALOE, a round greenhouse

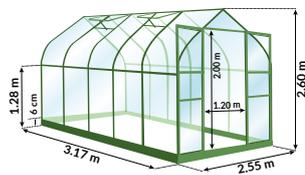

With a width of **2.55 m**, this greenhouse is available in 5 lengths from **3.17 m to 5.66 m**. It has a **1.28 m** gutter and **2.60 m** ridge height.

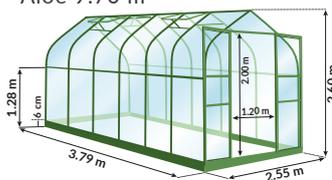

The Aloe greenhouses are equipped with:

- > 1 base frame with a **6 cm** height
- > 1 double sliding door (**W. 120 cm x H. 200 cm**)
- > 2 to 6 **roof windows** depending on the model (with automatic window opener as option)
- > 1 kit with one gutter downpipe

Aloe 12.90 m²	6	Green	794627
Aloe 14.40 m²	6	Green	794628

ADVICE N°4

What use for my greenhouse?

When the sun is still shy, the first seedlings can be sown in a greenhouse, which will save you a few weeks on the harvest. Your greenhouse can also be used to winterize your most fragile plants. And why not put in some garden furniture, to create an extra living space?

MELISSA, a lean-to greenhouse

The Melissa greenhouse is available in different widths (from 0.65 m to 1.90 m), lengths (from 1.30 m to 3.79 m), gutter height (from 1.56 m to 1.73 m), and ridge height (from 1.80 m to 2.27 m).

The Melissa greenhouses are equipped with:

- > 1 base frame with a **6 cm** height
- > 1 sliding door **W. 60 cm** and/or 1 double sliding door **W. 120 cm** depending on the model ; and a height of 150 to 170 cm.
- > 1 to 2 **roof windows** depending on the model (none for the 0.90 m² model) (with automatic window opener as option)
- > 1 kit with one gutter downpipe

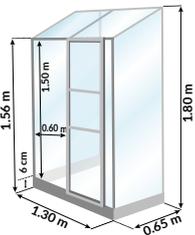

Melissa 1.70 m²

ADVICE N°5

How to manage the temperature?

Ventilation is essential to protect your greenhouse from temperature variations and humidity.

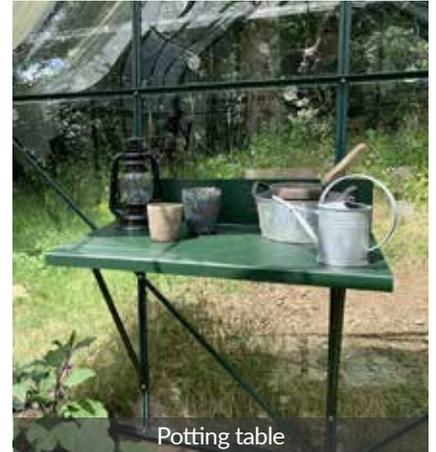

Roof windows provide regular ventilation. For your convenience, opt for an automatic window opener.
